ePrescribing

Central Coast Orthopedic Medical Group participates in ePrescribing medications to pharmacies.

ePrescribing is a federally mandated initiative that requires all physicians to prescribe medication using this method of transmission.

ePrescribing software sends prescriptions over the internet to your pharmacy in a safe, secure way, through the same technology used by credit card companies. This helps to protect the privacy of your personal information. ePrescribing also lets your doctor see important information such as drug interactions and your prescription history.

The benefit to you:

- Less confusion over handwritten prescriptions or unclear phone calls
- Reduced possibility of medical errors
- Less chance of adverse drug reactions
- Fewer trips to drop off at the pharmacy
- A safer, faster, easier way to get your prescription filled

Forms Fee Policy

Due to the rising cost in healthcare, practice expenses, and the demand on our staff for paperwork and telephone calls regarding the completion of various patient forms, it has become necessary to charge the following:

- **\$10.00 for State Disability Insurance Forms**
 - **There is no charge for completion of SDI follow-up forms**
- **\$25.00 per form for any other forms that require completion by the physician**
